Major Duties:

-Incumbent is a member of a research team whose objective is the development of more effective means for control or prevention of diseases of catfish, tilapia, hybrid striped bass and other warm water fish species via a combination of bacteriological, immunological, applied epidemiological, pathological, nutritional and management methods.

-Plans, conducts, and publishes original research involving the epidemiology and modeling of aquatic animal diseases and develops integrated fish health management plans.

Specific objectives of the research are to (1) develop and apply rapid non-lethal methods to detect, diagnose and evaluate effects of pathogens, toxins and compounds in aquatic animals; (2) develop *in vivo* and *in vitro* models for addressing the pathogenesis (mechanisms of disease) of bacteria, toxins, parasites and viruses in aquatic animals; and (3) conduct epidemiological studies using a multidisciplinary approach (e.g., microbiology, immunology, molecular biology, modeling of infectious disease) to determine and/or assess the risk factors associated with disease and origin of economically important aquatic animal pathogens that result in fish health problems in aquaculture.

The expected results of the research are (1) the development and application of rapid automated non-lethal detection tests that will allow early intervention (e.g., prior to disease epizootic) and aid regulatory personnel by allowing proper identification of a potential problem prior to importation or exportation of contaminated aquatic animal products; (2) the development of new and better *in vivo* and *in vitro* models of disease processes that will help scientists gain a better understanding of disease transmission and impact to aquatic animals; (3) epidemiology studies that will identify the major risks factors associated with disease in aquatic animal production systems and natural environments.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Research Epidemiologist, GS-0601:

Basic Requirements:

Degree in an academic field related to the health sciences or allied sciences appropriate to the work of the position.

In addition to the above basic requirements, applicants must have evidence of the following:

GS-12: Ph.D. or equivalent doctoral degree in a directly related field (e.g., epidemiology or public health) OR 1 year of professional research experience as identified in the KSAs' at least equivalent to the GS-11 grade level.

GS-13/14: 1 year of professional research experience as identified in the KSAs' at least equivalent to the next lower grade level.

Veterinary Epidemiologist, GS-0701:

Basic Requirements:

Doctor of Veterinary Medicine degree or equivalent degree at a school approved or accredited by (a) the American Veterinary Medical Association (AVMA), (b) a State department of education, or (c) a State Board of Veterinary Medical Examiners.

In addition to the above basic requirements, applicants must have evidence of the following:

GS-12: Ph.D. degree, including the dissertation OR 1 year of professional veterinary experience as identified in the KSAs' at least equivalent to the GS-11 grade level.

GS-13/14: 1 year of professional veterinary experience as identified in the KSAs' at least equivalent to the next lower grade level.

Professional Research or Professional Veterinary Experience: See "Specialized Experience" below.

This position has a positive education requirement. You must provide a copy of your academic transcripts OR a list of college courses with credit hours, dates completed, and grades received to verify education when applying for this position. If this information is not provided, your education may not be appropriately evaluated, and you may lose consideration for this position. If you are selected for this position, you will have to provide an official copy of your transcripts prior to entering on duty.

Time-In-Grade Restrictions apply for all candidates applying under "Alternative Merit Promotion".

Specialized Experience – professional research or professional veterinary experience which has equipped you with the following Knowledge, Skills and Abilities - 'KSAs' required to perform the duties of this position:

1. Ability to plan, conduct, and publish results of research in the epidemiology of animal or human diseases.
2. Professional knowledge of human or veterinary epidemiology including experimental design, statistical testing, and analysis and interpretation of results.
3. Knowledge of biostatistics and microbiology, immunology and molecular biology.
4. Skill in applying epidemiological methods including modeling to the analysis of large data sets.

To be considered for a research scientist position, you must submit a one-page abstract of your MS thesis and/or PH.D. dissertation. Also submit a list of names, addresses, and phone numbers of persons familiar with your stature, contributions, recognition; any honors or awards received; memberships in professional or honor societies; invitations to make presentations at scientific/technical meetings; scientific society office and committee assignments; presentations (other than invitation); and publications.

Vacant research positions may be filled at one of several grade levels depending upon the scientific impact of the person selected. A peer review may be required to determine the appropriate grade level of the position and supplemental materials may be required from the selectee.

Research scientists have open-ended promotion potential. Research accomplishments and their impact on the duties and responsibilities of positions are evaluated periodically. The grade level is limited only by the individual's demonstrated ability to perform research of recognized

importance to science and technology. *Final grade level may be determined by a peer review panel.

Other Important Information

Benefits Package:

A Benefits Package is authorized for this position. Additional information about Federal benefits can be obtained at www.usajobs.opm.gov/ei61.htm.
